November 19, 2015

Greetings Golfers,

As our 50th season of golf draws to a close, I want to again take the opportunity to say “thank you”. We appreciate your loyalty and your participation in our annual Customer Satisfaction Survey. It is in large part due to your passion and honest feedback that Radrick is such a special place. The survey has once again provided us with guidance for creating exceptionally valuable golf experiences for the University of Michigan community.

After a few seasons of lousy weather, Michigan finally provided a mild golf season which allowed for our average of about 30,000 rounds of golf. But this season was far from ordinary as we celebrated our 50th anniversary in grand style. Thanks to the guidance of our 50th Celebration Committee, we were able to pay homage to our past and share our important [place in golf history](#). The season-long celebration culminated with a Member-Member Tournament which had more participation than any event in our history. In fact, the event was so popular that we now plan to make it an annual event.

This offseason, we plan to make some improvements. With the increasing popularity of our practice facilities, we have heard that a close range target green on our driving range will be a welcomed addition. Long term, we plan to make several improvements to the driving range facility. We also plan to give our recreation room a facelift with the help of a generous gift from long-term Season Pass holder Jeannine Galetti.

Our plans can only come to fruition through the efforts of our dedicated Team of employees. As of this month, I am very pleased to announce that we have hired two new full time employees. Both have been a part of Radrick on a seasonal basis for the past two seasons. As our new Mechanic, Matt Clark solidifies our culture of determination. He has been learning from the very best, Lincoln White who recently retired after 30 years. Many of you already know our new Clubhouse Manager, Danielle Sanna. She began last season as our intern and jumped in as the interim Clubhouse Manager this season. Danielle has a degree in sport management from Michigan’s School of Kinesiology and a winning attitude. With these two crucial additions to our Team, Radrick has an extremely bright future.

Throughout the winter, we will periodically share the “Radrick stories” that we collected throughout the season. We will also provide you with great course information and future course plans through our [Superintendent’s blog](#) (don’t forget to sign-up for the e-mail notifications for new blog postings). Just because the grass isn’t green doesn’t mean that you can’t visit us. We will once again be holding our annual holiday sale which will include more 50th logo merchandise. Also, when conditions are favorable, we’ll bust out the area heaters and range balls to help keep your golf swing sharp.

We look forward to seeing you soon and often,

Paul L. Scott, II
General Manger
